EXERCISE AS MEDICINE FOR DEVELOPING MINDS AND GROWING BODIES AGED 6-17 YEARS

Navigating normalised stress and low moods, clinical anxiety and depression, growing pains, hormones as well as social and school pressures with your child can be challenging.

At The Exercise Therapist we understand this, and we are here to support with our prescribed, term-based programs. We look forward to welcoming your child at our purpose-built facilities at the Cottesloe Medical Centre.

"WE UNDERSTAND THE IMPORTANCE OF NURTURING A POSITIVE, HEALTHY RELATIONSHIP BETWEEN MIND & BODY DURING THE CRITICAL YEARS." – KATIE STEWART

REGISTER NOW FOR OUR TERM BASED PROGRAMS
